Gently Leading - Sexual Abuse Prevention

ELEMENTARY Textbook List

SOUTHERN UNION ADDITIONAL RESOURCES SCIENCE

Gently Leading: Sexual Abuse Prevention for grades 1-4 is designed to empower children to know what to do if they encounter a sexual abuse advance. Only one Teacher's Guide is needed. It outlines the total program, provides many reproducible student pages and includes a comprehensive section to give teachers the background information needed to teach this unit. In-service training is a prerequisite for teaching this curriculum and a complete video presentation is available for this purpose. To order, see the form below.

Single grade, large schools should teach this curriculum to **grades 2 & 4 every year** within the science/health curriculum. Multi-grade schools should teach this curriculum every other year on the odd year cycle. The activities are divided for grades 1-2 and grades 3-4, but the unit lessons may be taught together for grades 1-4.
