

Quarterly Portrait

Instructions

Photo copy this framed sheet for each child at the beginning of the school year (Aug) and ask children to draw a picture that represents him/her-self, a family member, or other person (Bible character, friend, relative, etc.). Repeat this activity at the end of each quarter (Oct, Dec, and May). Always place children's finished portrait drawings in their Work Samples portfolios for future reference. If preferred, or simply for the fun of variety, allow them to draw portraits on a chalkboard or whiteboard and taking a close-up photo of the portrait drawing to keep in their portfolios is also good. These portraits can be used to assess and track developmental progress of each child during the school year.
