## Pathways to French

### French Curriculum for Multi-Grade Schools A 3 –Year Cycle (Beginner – Intermediate)

This program has been created to help teachers who teach French as a Second Language in a multi-grade class, and who are not bilingual. The goal is to help teachers foster in their students those skills, abilities, and attitudes required for the development of communicative competence in the French language. Communicative competence can be defined as the ability to comprehend, and to negotiate and convey meaning in an effective, creative, and culturally appropriate manner. All the material presented in this program aims to stimulate in students the desire to continue to enhance their ability to use French. It aims to nurture these aspirations by providing a solid foundation on which students can build throughout life.

The curriculum is put into a 1 ½" binder and includes the following:
