

# Andrews University Challenge Exams Information for NAD Certification

Updated 12/2018

To better serve NAD teachers, Andrews University has updated their challenge exams service.

1. Links to all AU services to teachers, including [exams, courses, and degrees, here](#).
2. [Learn how challenge exams work](#), read objectives and find textbooks to review with prior to signing up for the exam. No further information is provided; just the exam request form and the exam in the online course space.
3. Notably, challenge exams assess college-level prior learning. Teachers should only be approved if they can pass an exam with a little review; taking the complete course is recommended if teachers need to study more than briefly refreshing your memory.
