

Dear Families,

Your child is about to begin a month-long science and literature theme focusing on living things. The title of this month's theme is *Deep in the Forest*. For this unit, we will read the following books:

- *When Rain Falls*
- *Where Would I Be in an Evergreen Tree?*
- *Good-Night, Owl!*
- *When We Go Camping*

We will focus on the concept of “Adaptation” while teaching the book, *When Rain Falls*. Children will participate in various activities while applying the concept of adaptation. We will also discuss the importance of the use of adaptation in our everyday lives.

At the end of the story, *When Rain Falls*, the students will create a bulletin board showing how animals live and how they may adapt to that habitat. Our bulletin board will be on display and viewed by the other classes. Please feel free to come and see what your child has done.

Thank you for your continued support.

Your child's teacher,
