

# SOURCE Reference

Your go-to "PREsearch" database!

The perfect place to begin research and develop information literacy skills

## Help your students start their research while building better research skills

with this easy-to-use reference platform and its engaging information literacy videos. *Source Reference* is an integrated research and information literacy skill development platform containing curated reference content, instructional videos, and tutorials—the ideal starting point for any research project or information literacy course.

## The Best Reference Content from the Best Reference Publishers

- 1.5 million full-text articles from 400+ top-tier reference titles from a wealth of renowned content providers covering **every major subject for grades 6–12**
- **Multiple viewpoints & perspectives** on trending topics & issues of real-time importance from trusted, nonpartisan sources
- **150,000+ images and 1,500+ videos**
- **11,000+ Topic Pages**, ideal for pre-search and topic exploration

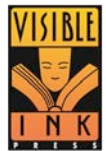

SCHOOL LIBRARY JOURNAL CALLS SOURCE REFERENCE A

**"Must-Have Database for School Research"**

## Why Source Reference?

Students today are asked to navigate a complex world of digital information. However, many struggle to search effectively, evaluate sources, and communicate their findings.

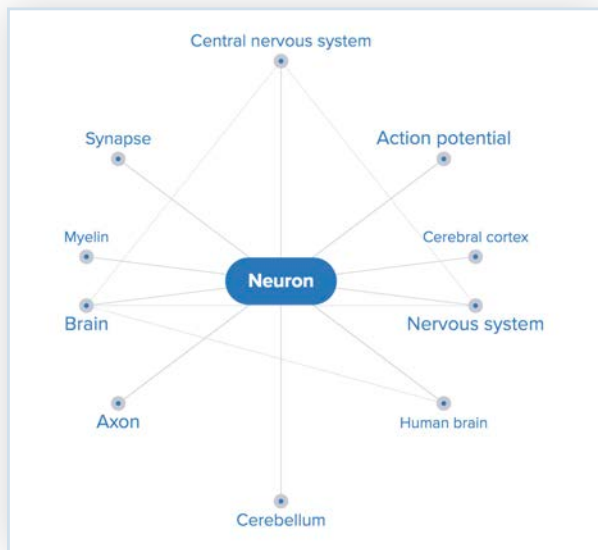

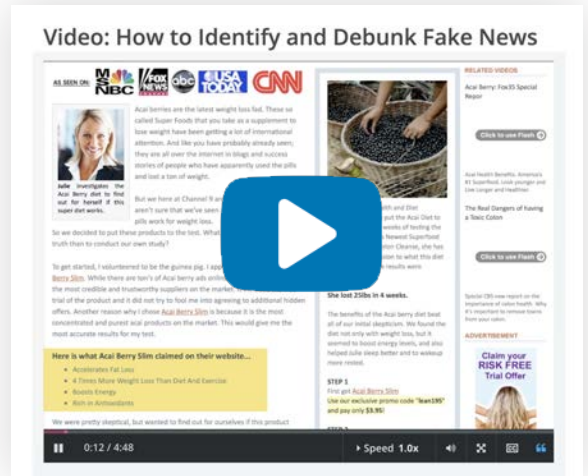

Prepare students for any kind of research or the rigors of academia by building their confidence and cultivating essential information literacy skills while using *Source Reference*.
