Tree Recipes

Brainstorming

Note to Parent: For our second writing assignment, all students are required to research a fruit tree recipe. Please assist your child in the first stage of the writing process by completing the following brainstorming activity. Also, note that your child may return home several times this week to finish parts of this writing assignment that he/she was unable to complete in school. Please work with your child daily on these assignments to ensure that all work is completed and submitted on time.

Directions: Answer the questions below in order to gather and clarify ideas for this week's writing workshop activity.

DUE: TOMORROW

List three fruit tree recipes (e.g., foods that can be made with apples, oranges, peaches, etc.). If your family has a special recipe that comes from a fruit tree, please include it below:

1. _____

2. _____

3. _____

Place a checkmark next to the recipe you would like to use for your "How-To" procedural writing assignment.

Please send a personal copy of the family recipe your child chose, or an online copy of the recipe selected, if a family recipe was not selected.

The copy of the recipe will assist your child with this week's writing activities. Please make this recipe at home with your child **and bring to school on Friday** so that it can be shared at our Arbor Day Celebration.
