

ELEMENTARY

THREE ANGELS FOR KIDS

The *Three Angels for Kids* is aptly named for this 2-week curriculum that calls children's minds and hearts toward the second coming of our Savior Jesus-Christ.

The *Three Angels for Kids* curriculum focuses on providing children an understanding about God's plan of salvation, strengthens their faith in a God who saves, and nurtures their hope of living in heaven with Christ.

This great resource shares the message of Revelation 14 in a language of faith, trust, and righteousness that students can comprehend at their age and grade level. It also provides training for the teacher to implement it with ease.

This integrated program can be used as a Literacy & Bible unit in the Elementary Grades and as a Social Studies & Bible unit in the Middle School grades.

This program is a MUST HAVE! In this age of strife, sadness, and confusion, our students need to know there is a God who freely offers love to His children, faith in His promises, and hope for His soon coming.

Please use this program and give our students the firm foundation to stand on during these times of uncertainty.

For more information about the *Three Angels for Kids*, please go to:
