

Testing Administration Information

Guidelines for MAP Testing Administration:

1st Testing Period: 4 weeks after the start of school: 4 weeks of instruction

2nd Testing Period: 20 weeks after the start of school: 20 weeks of instruction

3rd Testing Period: 32 weeks after the start of school: 32 weeks of instruction

NWEA is recommending a number of 28 weeks between the Fall and the Spring testing administration (32-4). The Winter testing period is interim and is used specially to inform best instructional practices before the last testing administration in the spring.

The 1st testing period should fall somewhere between August - September

The 2nd testing period should fall around December -January

The 3rd testing period should fall somewhere around end of April – start of May

*Please note, if you have not transitioned to MAP and you are using **STAR360**, the schedule guideline is applicable to your conference as well as it will keep us on the same pace.
