## WHY Have A Library Program?

The SU-LIR program exists to enhance and promote student literacy. Studies show that students who develop a love for reading early in life excel in every subject. Providing age appropriate, quality, and interesting reading materials for students, is essential to that goal. SU-LIR supports education professionals by providing them with resources to get students excited about reading and learning.

### Tools:

- **Mandarin (M5):** A state-of-the-art, union-wide, electronic library system which shortens the learning curve for teachers, library managers, and principals/head teachers when changing schools within the Southern Union Conference
- **Mackin.com:** The Online Management System (OMS) in Mackin.com that tracks library fund expenditures. The online shopping site that ships books ordered free of charge and shelf-ready
- **MackinVIA.com:** The online digital resource portal to all of the electronic resources provided for and purchased by your school. Access using your Mackin.com login credentials.
- Access to the library and digital resources 24/7, 365 days of the year from anywhere on any device
- Funds allocated each year to schools for library related purchases. Unused funds rollover to the next school year
